No. L-21021/1/2020-PH(IH)-Part
Dated the: 11TH February, 2020

Dear All,

This is in continuation of our letter L-21021/1/2020- PH(IH)-Part dated 1st February 2020 (Copy attached) wherein it was instructed to ensure as far as direct flights from China and Hong Kong and transited passengers from China and Hong Kong, travelling through Thailand and Singapore, to be screened universally through thermal screening or infrared thermometers.

It has now been decided, in view of community spread of the disease, to expand the universal screening for all passengers coming in flights directly from Japan, South Korea, Thailand and Singapore, besides the flights from China and Hong Kong.

It is requested, if need be, to increase the Health Counters and coordinate with State Government for additional manpower and logistics and submit the daily report.

With

Yours sincerely,

Sd/-
(Lav Agarwal)

Concerned APHOs/RDs/Officer Concerned.
